

NOTICE

The City of Ocean Shores Water Department will be flushing fire hydrants in the western areas of the City in September. Work will be conducted in the vicinity of Pt. Brown Ave., Ocean Shores Blvd., and Sand Dune Ave. from Ocean Lake Way to Taurus Blvd SW on November 7th and 8th and from Taurus Blvd SW to Butterclam St. SW on November 21th and 22th. It is common for flushing activities to stir up sediment in the water lines surrounding the work areas. We recommend that you do not use hot water during the hours of 8 AM and 4 PM on the days shown above. If you experience discoloration of your water, please run the COLD water tap for a few minutes until it clears. If you must use hot water during flushing operations, we strongly recommend flushing your hot water tank after our operations are complete.

A map of the work area can be viewed at www.osgov.com. If you have any questions or require additional information please contact us by phone at 289-4210 or email at mtobert@osgov.com.
